IMPORTANT NOTES

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

SYSTEM REQUIREMENTS

- Windows® 98, 98SE, ME, 2000 and XP (*Driver is required for Windows 98SE and below) / Mac® OS 10 or higher / Linux 2.4 or higher
- IBM PC / Mac® / Linux-compatible machine with USB Port
- Pentium MMX® 233MHz or higher
- 64 MB minimum RAM
- 10 MB free space minimum on hard drive

Thank you.........
for purchasing this Emerson Personal MP3/WMA™ Player. This MP3/WMA™ player offers easy to use plug & play features and has enough memory so you can listen to hours of your favorite songs. Also, you can use the player as a storage device for your computer.

Please read the instruction manual completely and carefully to make sure you understand the proper operation of this product. This will enable you to get the maximum enjoyment out of all the features within this state-of-the-art MP3/WMA™ player.

Once again, thanks for purchasing this Emerson product.

The serial number of your player can be found on the inside of the battery compartment. We suggest that you record the serial number of your unit in the space below for future reference.

Model Number: MP200
Serial Number:_____

Care and Maintenance
Your MP3/WMA™ player is a precision electronic device and should not be subject to rough handling or exposed to high temperatures or moisture.
Do not use chemical or liquid agent.
Wipe off unit with soft cloth.
Be sure to remove battery, while cleaning the product.
Weak battery should be removed or they can leak and damage the player.

PREPARATION FOR USE

POWER SOURCES

This player is designed to operate on one alkaline "AAA" batteries, not included. Attempting to operate this unit on any other power source may cause damage to the unit and such damage is not covered by your warranty.

INSTALLING THE BATTERIES

The battery compartment is located on the top of the cabinet.
1.) Slide the battery compartment cover outward, and then up.
2.) Insert one fresh "AAA" alkaline battery in the battery compartment. Be sure to follow the polarity marking in the battery compartment. If the battery is inserted incorrectly the unit will not work.
3.) Push down on the battery compartment cover, and then slide inward to close.

WHEN TO CHANGE THE BATTERY

When the battery is getting weak, the indicator changes from " 𝗜𝗜𝗜 " (full battery) to " ▭ " (replace battery) in the display, the batteries are almost exhausted and should be changed as soon as possible. Do not leave weak or exhausted batteries in the player as they will eventually leak and cause corrosion inside the battery compartment.

HOLD SWITCH

The HOLD switch locks all of the other controls buttons. If you are carrying the player in a backpack, handbag, gym bag, etc, set the HOLD switch to the 'On' position to prevent it from turning 'On' accidentally by something pressing against the PLAY/PAUSE ▷Ⅲ button. Likewise, once you start listening to the player you can set the HOLD switch to the 'On' position to prevent you from accidentally pressing the PLAY/PAUSE ▷Ⅲ button again or the ◀◀ or ▶▶ buttons while you are carrying or jogging with the player. Remember that to use any of the other controls the HOLD switch must be set to the 'Off' position. The Hold icon 🔒 will show in the display when the HOLD switch is in the 'On" position.
HOLD 'On'   HOLD 'Off'
INTERNAL AND EXTERNAL MEMORY

- Your player will have slightly less memory available than stated due to the necessary memory needed for it's firmware.
- In addition to the built-in memory, you can install a SD®/MMC card. Your player supports up to 512MB SD®/MMC cards.
- NOTE: Both the internal and external memory will be shown as a "Removable Disk" with consecutive drive letters. The first drive listed as "Removable Disk" represents the internal memory; the second "Removable Disk" represents the optional external memory. Refer to "Transferring Music and Data Files" for more information.

TROUBLESHOOTING

Player is not recognized on my Windows® 98SE computer:
Install the MP200 driver from the website. Connect the player to your computer and follow your operating system's instructions to finish installing the driver. For more info visit our website: www.emersonradio.com .

If player is still not recognized, locate the Universal Serial Bus (USB) devices in your operating system's device manager. If your MP200 displays a problem, follow your operating instruction's directions for updating the device driver and load the driver from the website. For more info visit our website: www.emersonradio.com .

After transferring files to the player, music did not play or data was not present: Make sure music is in the MP3/WMA™ format. Follow your operating system's instructions for safely disconnecting USB devices.

Buttons do not work/player does not power up: Make sure the HOLD switch is in the off position. Make sure the battery is in the correct position. Replace the battery with a new one if necessary.

No sound is heard through the headphones: Check the headphone connection and adjust the volume level.

LIMITED WARRANTY

Emerson Radio Corp. warrants manufacturing defects in original material, including original parts and workmanship, under normal use and conditions, for a period of ninety (90) days from the date of original purchase in the U.S. With your dated proof of purchase, we will provide repair service at no charge for labor and parts at an authorized Depot Repair Facility, or replace the product in our discretion. For repair or replacement, pack your unit in a padded box, enclose your check or money order payable to Emerson Radio Corp. in the amount of $9.00 (not required by California residents) to cover shipping and handling costs, and enclose a copy of your proof of purchase. Send your unit to:

Emerson Radio Corp.
5101 Statesman Drive,
Irving, TX 75063.

This warranty does not cover damage from negligence, misuse, abuse, accident, failure to follow operating instructions, commercial use, rental, repairs by an unauthorized facility, or products purchased, used, serviced or damaged outside of the United States.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.
